## **DURALITE 800NMP - SPEC SHEET**

## **O**VERVIEW:

Fabrication:

Speed:

Steel

Max Rod Size (Clamp): P - 4.625" (117 mm)

Variable up to 1,500 RPM

Duralite Diamond Drills are constructed from only the best quality materials and are designed to be both durable and lightweight. All aspects of the drill have been designed to ensure maximum safety for the user(s). Considerable attention has been given to the size and weight of every component to afford the most efficient disassembly, transport, and re-assembly possible. The total operational weight of the **Duralite 800NMP** is only 7,520lbs (3,407 kg).

| Performance:   |  | Wireline Hoist (with Guarding):   |   |            |            |
|--|--|---|---|------------|------------|
| Depth capacity* for diamond drilling  B 2 3/16" (55.6 MM) 3,575 FT (1,100 M)  N 2 3/4" (69.9 MM) 2,600 FT (800 M)  H 3 1/2" (88.9 MM) 1,950 FT (600 M)  * Drilling capacity is based on a 45-90° hole and will Depend on in-hole tools, ground conditions, drilling techniques and equipment used. |  | The wireline winch is manufactured out of steel and is driven by a low speed, high torque hydraulic motor providing variable speed. |   |            |            |
|  |  | CABLE CAPACITY: PULL CAPACITY:  | 3/16" (4.88 мм): 4,000' (1219 м)<br>2,000 LBS (907кG) |            |            |
| techniques and equipmen  | it used.                                     | Rod Handling Winch  | (with Guarding):                                      | <u>.</u>   |            |
| Standard Engine: 4 x 44 hp Kubota Mechanical Diesel engines  |  | CABLE CAPACITY: PULL CAPACITY:  | 5/16": 100' (30.5м)<br>300 lbs (136кg)                |            |            |
